**LOGIBEC ACQUIRES ACHIEVE HEALTHCARE TECHNOLOGIES  
AND DOUBLES THE SIZE OF ITS AMERICAN ACTIVITIES**

---

Montréal, November 19, 2007 – Logibec Groupe Informatique Ltd. (TSX: LGI) announced today that its wholly-owned subsidiary MDI Technologies, Inc. (« MDI »), acquired the assets and business activities of Achieve Healthcare Technologies L.P. (« Achieve »). Achieve develops, markets and supports clinical and administrative software designed specifically for the elder care market in the United States.

Founded in 1994 and based in Minneapolis, Achieve serves over 2,600 facilities and, prior to this transaction, was one of MDI's main competitors. Following this acquisition, MDI becomes the leading software provider to the elder care market in the United States with a customer base of approximately 6,000 facilities.

The purchase price is set at US\$34.0 million of which US\$20.0 million was paid at closing. The balance of purchase price of US\$14.0 million bears interest and will be paid in three installments of US\$4.0 million, US\$4.0 million and US\$6.0 million on June 30, 2008, 2009 and 2010.

This acquisition is also financed by the Company's cash on hand and by an amendment to its existing credit facilities with National Bank of Canada and ScotiaBank, which sets the total of these credit facilities at CA\$24.0 million.

Achieve's current contractual agreements should contribute approximately US\$14.0 million to the Company's recurring revenue during the fiscal year 2008.
